

GCCTM SPRING CONFERENCE

Breaking the Cycle: Classroom Strategies for Intervening, Extending and Accommodating

WHAT TO EXPECT

Participants will choose from three K-12 level breakout sessions. One session will focus on “intervening,” in which participants will learn strategies they can apply so that all students reach their grade level learning goals. The second choice is “extending.” This section will focus on how to help students, including gifted learners, reach their maximum potential. The third option focuses on “accommodating,” in which participants will learn how to create more effective tests and handouts to accommodate all learners including those reading below grade level.
